

---

**Meeting News: June**

The meeting had a good turn up of 12 members.

**Correspondence:** Notice of Cairns Education Centre AGM  
Graham Boyle is in Malaysia and will stay 2 years

**Friends of the Botanic Gardens : Garden Festival 7th September 1997**  
**Cairns Tropical Garden Expo :** Display organised by Des Boorman.  
**Memorial for Helen Moody:** Anton tabled the landscaping plans (see reverse).

**Bruce Wannan** set up 2 computers with the Bernie Hyland key for Identification of Rainforest Plants. Bruce gave a discussion on how to use the application, supported by information from Rob. Members wanting to check how it came together were walked through the different aspects of the program. It was an interesting evening

**Cairns Show Display:**

**The Cairns Show** runs from July 16-18th and the Society will be mounting a display. We will stick to our usual format with a floral display. We will commence setting up on **Tuesday July 15th at 5.00pm** and expect to finish around 7.30pm. This will double as our monthly meeting. **ALL HANDS ON DECK PLEASE !**

This is a floral display, so if members could raid their gardens as well as any others they have access to, it would be greatly appreciated. Cut flowers should have reasonably long stems. Any unusual seeds or botanical specimens would also add interest to the display.

We will set up in the old Youth Centre building on Mulgrave Road, between the Fred Moule Pavilion and the Band Hall. The front door may not be open, so scout around for the other entrances.

Cut flowers can also be entered for judging in the Horticultural Section of the Show - so you could win a little pocket money!

Handy items to bring are **buckets- secateurs- and old watering can** (if anyone has one) and anything else you think may be useful.

Phone 31 6103 if you have any queries. **Grahame Magarry** Displays Co-ordinator

**Remember Tuesday (July 15th) for setting up at 5.00 pm**  
**Bring lots of flowers**  
**Many hands make light work.**
